

PURIPHAN SAWATUDOMPHON

CONSULTANT - DATA AND PLATFORMS

WORK EXPERIENCE

Consultant - Data and Platforms - Digital Balance Australia PTY Limited | Aug 29, 2022 – Dec 31, 2025

- Developed and maintained strong relationships with multiple clients and stakeholders to understand their business needs and goals.
- Provided comprehensive measurement solutions that leveraged technology, data, process, people, and strategy.
- Developed technical and data-driven strategies and recommendations to maximize clients' return on investment in digital platforms, processes, and teams.
- Analyzed customer behavior on digital properties and identified key customer journeys that aligned with clients' KPIs, highlighting areas of improvement and opportunities for optimization.
- Built executive-level dashboards using Adobe Analytics Workspace, Google Data Studio, Domo, Microsoft Power BI, or Tableau, to enable clients to make data-driven decisions with minimal technical understanding.
- Collaborated with client developers to test and debug measurement code, ensuring accurate data collection and reporting.
- Managed the implementation and maintenance of clients' Adobe Experience Cloud and/or Google Marketing Platform, including tracking and tagging, data integration, dashboard creation, reporting, and health checks.

Senior Manager, Digital Data Engineer - Total Access Communication Public Co. Ltd | Aug 1, 2020 - Apr 30, 2022

- Analyzed business objectives and defined project requirements to ensure accurate and valuable data was collected
- Designed and implemented a global naming convention for digital data, including website and application design
- Managed user access to Google products, ensuring efficient and secure use of tools such as Google Cloud Platform, Google Analytics, Google Tag Manager, and Firebase
- Cleaned and analyzed performance data, utilizing Data Studio to visualize insights and drive data-driven decision-making
- Implemented 3rd-party cookie tracking to support the media team's needs through the use of Google Tag Manager
- Successfully migrated GA360 to GA4, ensuring all necessary configurations were in place
- Trained end-users on the use of Google tools and best practices for data analysis and visualization
- Acted as a liaison between technology and business stakeholders, bridging the gap between the two and ensuring solutions were aligned with business objectives
- Continuously monitored website and application performance and made recommendations for improvement based on data analysis

Data Analyst Manager - Predictive Co. Ltd | Mar 27, 2017 - Jun 30, 2020

- Collaborated with both Thai and foreign clients to understand their business problems and needs, defining project requirements and goals
- Managed and supervised a team of junior and senior data analysts, ensuring projects were completed on time and to a high standard of quality
- Implemented advanced website and application tracking solutions to gather insights into user behavior and support data-driven decision making
- Conducted in-depth performance analysis and presented reports to clients, using Data Studio and Python to measure the impact of projects
- Provided training and workshop sessions to clients, equipping them with the skills and knowledge needed to effectively utilize the tools and techniques implemented
- Utilized BigQuery and SQL to perform complex data analysis, uncovering valuable insights into customer behavior and trends
- Improved website and application performance through the implementation of best practices in Search Engine Optimization (SEO), resulting in significant growth in organic traffic
- Improved user journeys through A/B testing and personalization using Google Optimize, leading to a substantial increase in conversions
- Acted as a trusted advisor to clients, providing expert guidance and recommendations on how to effectively use data and technology to achieve their goals.
